

St Petersburg  
University

# POLAR AND MARINE SCIENCES (POMOR)

Level of education: **Master programme**

Type of instruction: **Full-time**

Duration: **2 years**

Language of instruction: **English**

## BENEFITS OF THE PROGRAMME

- The programme offers insights into polar and marine ecology, oceanography, geology, and climate change.
- Students have an opportunity to join expeditions on board major Russian and German research vessels.
- The third semester is spent at the German partner universities (Hamburg, Bremen, Kiel or Potsdam).
- Graduates receive a double degree: Master degree from St Petersburg University and Master of Sciences from the University of Hamburg.
- International accreditation by ASIIN e.V.

## KEY SKILLS

### The graduates are able to:

- set goals, objectives and choose methods of applied research in the field of polar and marine science.
- obtain new reliable facts based on observations, experiments and analysis of empirical data.
- apply state-of-the-art methods of processing and interpreting scientific data.
- carry out environmentally friendly surveying, geological exploration, and other types of work in the study and/or operation of natural objects in Polar Regions.
- establish and maintain relationships in the social and professional sphere.
- the graduates have obtained international and intercultural competences.
- constitute a trend-setting network for scientific-technical cooperation between Russia and Germany.

## CAREER OPPORTUNITIES

The students are equipped with the best of a diverse range of opportunities for polar and marine sciences, locally, nationally and globally. They can pursue academic research in the top Russian and world's research institutions in climate studies, oceanology, hydrology, biology, geology, paleography, geomorphology and polar geography.
